

Computerized Hairstyle Imaging

Description of Activity: School districts desiring to add computerized hairstyle imaging into their cosmetology curriculum should work with the family and consumer sciences program manager to meet the equipment, curriculum, and inservice requirements. Required #3 – Use of Technology; Required #6 – Improve, Expand, and Modernize Program

Curriculum: Schools must have an approved cosmetology program of study to implement this activity.

Inservice: When items are purchased for the activity, the school district must make arrangements for inservice training through the vendor, dealer, or educational cooperative. No equipment will be approved unless the inservice component is addressed. The training should be thorough and specific to the items purchased.

Cost: The total cost of this activity should not exceed \$3,000.

Computerized Hairstyle Imaging
